MAGGIORE E-CITY from Restricted to Unrestricted Traffic Zones

Enjoy riding around town, without a worry in the world and zero emissions

Do you need a car to get from the airport to the city, go to a business appointment in the city centre, or get from home to work; or do you simply want to spend a day shopping or visiting museums in a Restricted Traffic Zone?

With **Maggiore E-City** you have the solution at your fingertips, with daily, weekend and weekly rates to drive in Restricted Traffic Zones. It's great to know you can go wherever you want at ZERO emissions, knowing that you are respecting the environment!

Try an **electric car** using the service offered by Maggiore:

- ✔ Select **E = Electric group** when you book a car.
- ✔ Top-up charging cards available at our agency to use during your rental.

MAGGIORE E-CITY from Restricted to Unrestricted Traffic Zones

It's great to know you can go wherever you want at ZERO emissions, knowing that you are respecting the environment!

In Milan and Rome, **Maggiore E-City** gives you:

- Free access to Unrestricted Traffic Zones
- Free parking in blue parking lines
- Your electric car will be delivered to you with a charge of at least 70% at the start of the rental**
- Electric cars must be returned with a minimum charge of 70% at the end of the rental period.** To save time, we will recharge your car for a small fee:
Battery below 70%: € 25.7 (+ VAT)
Battery below 10%: € 40.8 (+ VAT)
- Drop off at selected agencies in the same city, an updated list of which is on our website.

Climb aboard an electric citycar and drive wherever you want

To give you the best driving experience, Maggiore has chosen 3 of the best electric cars on the city mobility market: the **New 500 Full Electric**, a glamorous city car particularly appreciated for its advanced technical features, the **Renault ZOE** and the **Peugeot E-208**. These road-focused, responsive and easy-to-drive e-car models are the best way to enjoy unrestricted city-centre mobility. To recharge, simply find [the column nearest to you](#) and use the recharge card you purchase from Maggiore.

NEW FULL ELECTRIC 500 / RENAULT ZOE / PEUGEOT E-208

DATA SHEET

	NEW FULL ELECTRIC 500	RENAULT ZOE	PEUGEOT E-208
> Battery	Lithium Ions	Lithium Ions	Lithium Ions
> Max. speed in km/h	150	135	150
> Range in km (WLTP) ¹	320	395	340
> Battery capacity in kWh	42	52	50
> CO2 emissions (combined cycle) in g/km	0	0	0

HOW FAR CAN I DRIVE WITH A FULL CHARGE²

Business trip	km	Remaining battery charge
> 9am from Milan Linate to Citylife for meetings	11	97%
> 11am lunch in Brera	3,5	96%
> 3 pm departure for Milan Linate	10	94%

CHARGING TIMES DEPEND ON THE SIZE OF THE BATTERY³

Charge power	Charge times 80% battery			Km recovered with 30min charge		
	NUOVA 500 FULL ELECTRIC	RENAULT ZOE	PEUGEOT E-208	NUOVA 500 FULL ELECTRIC	RENAULT ZOE	PEUGEOT E-208
50,0 kWh	00h 45m	01h 05m	00h 53m	145 km	157 km	135 km
22,0 kWh	03h 12m	02h 15m	04h 03m	30 km	60 km	50 km
11,0 kWh	03h 12m	04h 30m	04h 03m	30 km	30 km	50 km
7,4 kWh	04h 48m	06h 54m	06h 02m	20 km	20 km	33 km
3,7 kWh	09h 36m	12h 56m	12h 05m	10 km	10 km	17 km
2,3 kWh	15h 24m	29h 34m	24h 56m	6 km	6 km	7 km

¹ The consumption data shown by the table refer to the values approved in accordance with the European regulation applicable to all manufacturers and vehicles sold in Europe. Driving styles, the technical conditions and optional features of the car, and weather, road and traffic conditions may all affect consumption, which may therefore differ from the consumption calculated according to the above Regulation.

² The simulator gives an estimate of the range of the New Full Electric 500, Renault ZOE and Peugeot E-208 models in normal conditions of use.

³ The data provided are an estimate and may differ according to charging conditions.
