

## **Maggiore invoices now travel on-line, ready to be collected at the desk**

Maggiore has recently added an invaluable feature to its service: your invoice is issued at the desk and sent automatically via e-mail immediately after payment by cash/credit card on return of the car.

Customers' reactions have been positive and say they appreciate this new venture by Maggiore to optimise processes, and consequently its service.

But that's not all. The customer also receives a mobile text message in real time giving the invoice number, so it can be downloaded from the website [maggiore.it](http://maggiore.it).

This winning, innovative formula is practical and efficient.

Proof that Maggiore is more.
